

Cartridges

Type 2 K

For two-component expansion adhesives and foams: two incompatible product components are kept separate from each other, and brought together in defined proportions, mixed and dispensed only when being applied. The shaped inner cartridge folds up on use. The package has the same dimensions as a standard sealant cartridge and thus can be extruded with a standard sealant dispensing device.

TECHNICAL SPECIFICATIONS

Material:	HDPE
Contents:	2 x 100 ml
Wall thickness:	min. 1,4 mm
Weight:	79 g
Packaging unit:	140 pieces/box

Technical changes reserved.
