

PLUNGERS

TYPE K 30 ST

CAN BE COMBINED WITH

290 ml Fischbach cartridges

ADVANTAGEOUS FEATURES

- > suitable for sealing compounds and adhesives with higher sensitivity to water vapor
- > good mechanical handling especially on fully automatic filling lines
- > the convex plunger head and the flexible raw material of the plunger facilitate plunger setting
- > the inwardly slanted plunger expanding ring increases the plunger diameter during pressing for optimum emptying of the cartridge even with viscous masses
- > mechanical and pneumatic devices can be used for applying the product
- > the flexible sealing lips also create a seal against application devices that use compressed air
- > little or no emerging of product from the nozzle after completion of pressing

General tolerance:
DIN 16 901-150. Subject to technical changes.
Our product recommendations are based on empirical data only and cannot replace the customer's own tests.

TECHNICAL SPECIFICATIONS

Material: LPE
Weight: 6,4 g
Packaging unit: 1500 pcs./box
